PROFILE

I am proficient in developing single-page applications using ReactJS and also adept in Python, spanning application development, and experience in building interactive GUI applications using libraries such as Tkinter, Kivy, KivyMD and PyQt, data structures, algorithms, and artificial intelligence.

With UI/UX design and extreme interest in the broader umbrella that is graphic design, I also create dynamic and responsive websites that hit all the five stars at the user experience mark. I proficiently utilise HTML, CSS, JavaScript, and Python frameworks to build web projects.

LEARNING EXPERIENCE

Teachnook
Cyber Security Internship   April, 2023

Google Cloud
Generative AI Fundamentals   September, 2023
Introduction to Responsible AI   February, 2024

LinkedIN
Generative AI   January, 2024

Udemy
Web Development Bootcamp   May, 2023

GirlScript Summer of Code 24
Contributor   May, 2024

PROJECTS

To-Do List- Tkinter
Music Player App- Tkinter
Mobile App Interface- KivyMD
Museum of Coffee- Informative Website
TabNotes- Note Making and Assistance Website
CalmQuest- Mental Health Survey Website

TextUtils- React
Text Manipulation and Analyzation
NewsStash- React
Daily news headlines facility
Notebook- React
Organisation and Storage

KEY COMPETENCIES

React

Python

Tkinter, Kivy and KivyMD

Data Structures

HTML, CSS and Bootstrap

JavaScript

Algorithms

EXTRACURRICULAR ACTIVITIES

Institiution's Innovation Council- An Initiative by MoE's Innovation Cell
Core team member

EDUCATION

Bachelor of Technology   **2022-2026**
Major: Information Technology
Jabalpur Engineering College, Jabalpur (M.P.)

Higher Secondary
JNV Narmadapuram (M.P.)   **2022**
